## DISCOVER THE DIFFERENCE

---

We are proud to present The Moura Memorial Range and we hope that this brochure will help you to decide upon a suitable memorial for your loved one.

Throughout these pages you will find a range of exceptional quality memorials that are suitable for cemeteries and churchyards. The options of material and design are almost endless, so this brochure represents only the most popular memorial designs. If you have something in mind that isn't shown here, please let us know as we will be pleased to create something that meets your needs.

It is important to note that Mauritius does not have any stone or granite quarries and therefore all products will be imported over the coming years so that, over time, we are able to increase the product range. In the interim, MOURA will have limited design options and these will be highlighted to you.

## CHOOSING A MEMORIAL

The range of materials and designs has greatly increased over the years and making the right choice can be a daunting task. This brochure illustrates a range of high quality memorials. Headstones and memorials could reflect the people they commemorate and we will do all we can to help you achieve this. Bespoke design services are also available.

## Regulations

Churchyards and cemeteries have regulations which govern the size of memorials as well as the materials and designs. Please do speak to us for advice on the specific regulations of your cemetery.

## Materials

This brochure gives examples of granites, marble and other natural stones. Each of these materials has individual characteristics which are important to know before making your choice. For example; Granite will weather better over time than sandstone, marble may stain easily especially in certain circumstances, some granites are more porous than others and will become darker when wet etc. We can offer guidance on all of these materials and their suitability to your needs.

## Lettering

You will see different examples of lettering as you read through the pages. The use of gold leaf for the inscription is common however painted letters, raised bronze letters and flush lead may also be considered in certain situations. Again our expert advice will ensure that you are fully informed on the choices available to you.

## Maintenance

Understanding the maintenance requirements of different materials may help you make the right choice at the beginning of the process as well as ensuring that your memorial stays in the best possible condition over the coming years. Please do ask us about this aspect of your memorial.

Your needs are as unique as the person's life you are commemorating. Our expert advice and guidance will help you to make the choices that are right for you.

## Inscription Wording

Finding the right words for your memorial can be difficult. This section offers some guidance which we hope will help.

*Please be aware that Churchyard and Cemetery regulations may restrict your inscription choices. If you are not aware of the restrictions that affect your memorial we will do our best to help.*

The layout below shows a typical inscription

### Lead

### CNC CARVING

Traditional masonry skills can now be enhanced by modern technology. Computer aided design and modern machinery produce precision relief carvings at affordable prices. We offer an extensive range of beautiful designs and can also reproduce bespoke works of art to create a memorial as unique as the person you're commemorating. The resulting 3D carvings can be left as natural stone or painted by our team of highly skilled artists.

### CNC Lettering

The same modern technology can accurately reproduce 'V-cut' lettering, a deep profile inscription which has significantly more impact than traditional sand-blasted letters.
